PROFESSIONAL SUMMARY

AI Engineer specializing in **LLM systems, multi-agent architectures, AI Workflows** and **hybrid RAG pipelines**, with **2.5+ years** of experience delivering **production-scale GenAI solutions**. Proven ability to design autonomous AI systems, optimize retrieval and reasoning, and deploy scalable solutions across **Databricks** and **on-prem infrastructure**.

TECHNICAL SKILLS

LLM Systems: RAG, Hybrid RAG, AI Agents, AI Workflows, LangGraph, LangChain, DSPy, MCP, LlamaIndex, A2A Protocol

Core ML: Pandas, Numpy, NLP, Deep Learning, PyTorch, TensorFlow, Scikit-learn

Infra & Deployment: Azure Databricks, Docker, Kubernetes, Kubeflow, Azure AI Search, Flask, FastAPI, Ray

Data Systems: FAISS, Milvus, SQL

Languages: Python, Java, PySpark

Evaluation & Monitoring: Langfuse, MLflow, Uptrain

EXPERIENCE

Jio Platforms Ltd. | *AI Engineer (GenAI Systems)*

Aug 2023 – Present

Architected Multi-Agent Email AI System (Production-Scale)

- Led design and deployment of a **LangGraph-based multi-agent system** processing **10k+ emails/day**, automating end-to-end support workflows
- Decomposed workflow into **12+ specialized agents/nodes** (intent detection, ABSA, query extraction, retrieval, drafting, summarization), enabling modular reasoning and extensibility
- Built an **LLM-driven decisioning engine (T2R pipeline)** implementing dynamic multi-step reasoning over structured options, reducing manual intervention by **70–80%**
- Integrated **Model Context Protocol (MCP)** services to fetch real-time customer state (orders, tickets, availability), improving resolution accuracy by **35%**
- Designed **guardrails + auditing agents** to enforce response quality, reducing hallucinations/unsafe outputs by **40%**
- Deployed via **Databricks Model Serving + on-prem infra**, achieving **<2s latency** at scale
- **Impact:** Reduced support turnaround time by **90%+**, enabling near-autonomous email resolution

Built Hybrid RAG System with Intelligent Query Routing

- Designed and implemented a **hybrid retrieval architecture** combining structured (SQL) and unstructured (vector DB) reasoning
- Developed an **LLM-based information extraction pipeline** to convert legal documents into key-value structured data, persisted in relational storage
- Implemented **query classification + routing layer** to dynamically select between SQL execution and semantic retrieval, improving structured query precision by **45%**
- Reduced unnecessary vector retrieval calls by **30%**, optimizing latency and cost
- Delivered **40%+ improvement in answer accuracy** and **30% reduction in hallucination rates** using evaluation frameworks (Langfuse, Uptrain)

Developed NLP-to-SQL Reasoning System

- Built an **LLM-powered natural language to SQL pipeline** enabling users to query structured data without writing SQL
- Integrated with RAG system to support unified QA across structured + unstructured sources
- Reduced dependency on manual SQL queries by **60%**, improving accessibility and query turnaround

Designed Scalable AI Agent Ecosystem (A2A + MCP)

- Engineered **Agent-to-Agent (A2A) communication framework** enabling coordinated task execution across **5+ agent workflows**
- Developed **reusable MCP-based tool interfaces**, reducing integration effort by **40%**
- Enabled modular, extensible architecture for rapid onboarding of new AI capabilities

Additional Contributions

- Built AI agent for **SQL error root cause analysis**, reducing debugging time by **50%**
- Deployed and optimized open-source LLMs (**Llama, Whisper, qwen**).
- Designed **Kubeflow pipelines** for scalable ML workflows, improving efficiency by **35%**

Jio Platforms Ltd. | *Software Engineer Intern*

May 2022 – Jul 2022

- Developed **AutoML pipelines** improving model selection efficiency by **25%**
- Built frontend components for internal data platform

EDUCATION

B.Tech – Computer Science and Biosciences

Indraprastha Institute of Information Technology, Delhi | 2023

AWARDS & ACHIEVEMENTS

- Felicitated with the **R-Samman Award** during Employee Recognition Week at **Reliance Jio**
- Received the **Business Excellence Award** for Data Science Platforms at **Reliance Jio**
- Certified **Academy Accreditation in Generative AI Fundamentals** by **Databricks**
- Certified **AI Agents Fundamental** by **Hugging Face**
- Certified MCP Course: **Automation in Production** by **Hugging Face**
- Certified **Fundamentals of MCP** by **Hugging Face**

PROJECTS

- **Cancer Detection System:** Trained classification model achieving **90%+ accuracy**
- **Event Management Platform:** Automated scheduling system reducing conflicts by **80%**
